

The background of the slide is a photograph of an airport terminal. In the foreground, the silhouettes of several people are visible, some standing and some walking. In the background, a large airplane is silhouetted against a bright sky, likely during sunrise or sunset. The sky is a mix of blue and orange. The overall scene is captured from a low angle, looking up at the people and the plane.

ATG's financial performance was largely driven by growth in air travel demand and increase in market share as well as by new business acquisitions

...driven by organic growth and acquisitions

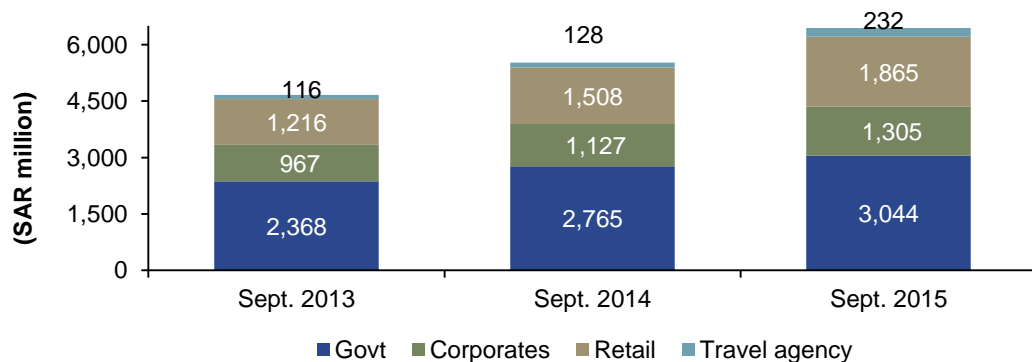

Net revenue by business segment

Comments/outlook

- Ticketing currently contributes close to 81% of ATG's net revenue
- The contribution from the hospitality segment, primarily in Makkah, is expected to start 2016

Net revenue by client

Comments/outlook

- Revenues from government clients grew by 10% whereas revenues from corporate and retail clients grew by 16% and 24% respectively
- ATG is looking to increase its market share in the retail segment

ATG financial performance has been driven mainly by growth in ticketing services

...with robust balance sheet...

Highlights of ATG balance sheet

The vast majority of ATG's assets are in working capital related to its core operations of ticketing and more importantly to its investments in the hospitality segment in Makkah

...coupled with strong cash flow generating capacity...

Highlights of cash flow statement

In SAR million	2012	2013	2014	Sept. 2014	Sept. 2015	Comments
Cash flow from operations	934	1,087	1,261	887	946	<ul style="list-style-type: none"> • ATG has achieved relatively high cash conversion results • Cash flow generated from reduction in working capital is largely attributed to pre-payment from key government clients • The majority of investments is related to the acquisition of the additional stake in Muthmerah, CTM, Elegant Resorts & Kenzi hotel
Cash from change in working capital	281	1,070	(98)	(1,108)	(325)	
Net Cash flow from operating activities	<u>1,215</u>	<u>2,157</u>	<u>1,163</u>	<u>(220)</u>	<u>622</u>	
Cash flow used in investing activities (net)	(472)	(370)	(735)	(608)	(1,743)

Dividend paid	(307)	(440)	(540)	(545)	(5)	
Increase/decrease in cash	<u>339</u>	<u>1,370</u>	<u>(159)</u>	<u>(1,209)</u>	<u>(11)</u>	
Cash at beginning	407	747	2,117	2,117	1,959	
Cash in hand	747	2,117	1,959	908	1,948	

ATG generates substantial operating cash flow enabling it to make significant discretionary investments in its core businesses such as online platform and more importantly in new business segments in Hajj and Umrah hospitality

Section 3

overview of E-Commerce initiatives

Tab A

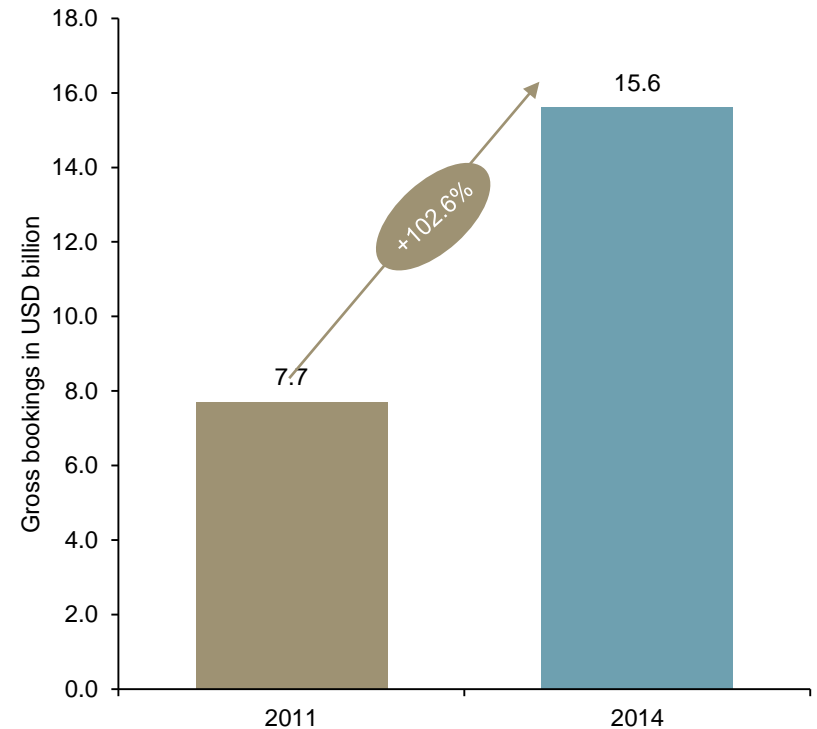

ATG's new OTA project

Most of the Middle East travel industry growth in the last 4 years has been fueled by online travel growth

While the overall B2C and unmanaged business travel market in the Middle East has grown by 37.6% from 2011 to 2014...

... the online share of the overall market more than doubled!

Source: PhocusWright

Industry experts expect most of the future growth to come from mobile and online consumer sales

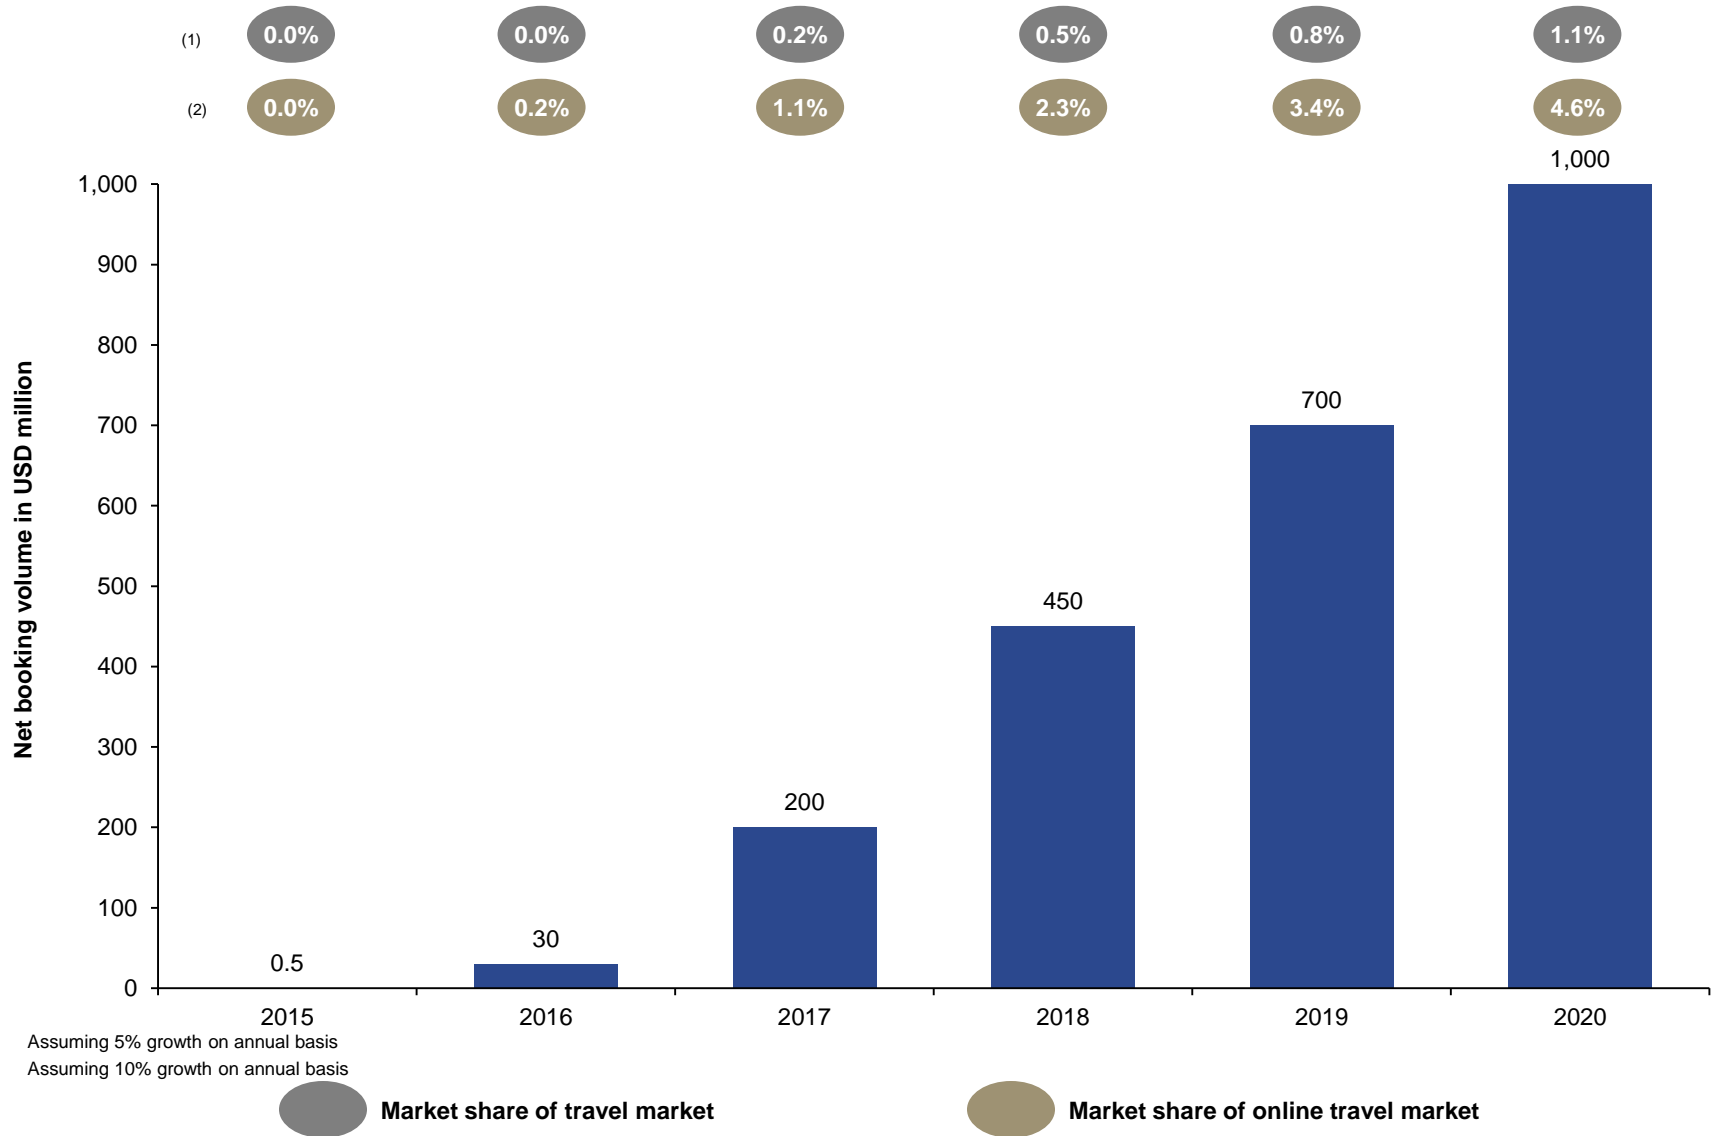

ATG has invested in a new online player with sustainable competitive advantage

The formal setup	<ul style="list-style-type: none">• A separate entity has been created in Dubai to enable the required speed of implementation• AI Tayyar Group owns this entity entirely (100%)• The entity operates outside of the existing AI Tayyar Group boundaries, i.e., like an independent startup
The Team	<ul style="list-style-type: none">• The Founding Team for the new entity consists of internationally experienced online entrepreneurs (Alumni from McKinsey, Cleartrip, Sukar.com/ Souq.com, etc.)• The AI Tayyar Group CEO heads the Board of Directors of the new entity, and is supported by key people from the Group's Board as well as from the Senior Management of AI Tayyar Group
Purchasing Advantage	<ul style="list-style-type: none">• Being able to benefit from AI Tayyar Group's size, history, and existing senior relationships within the travel industry, the new online business benefits from better pricing as well as better availability of inventory in various markets• Given AI Tayyar Group's international presence, the new online business can optimize its offers, its payment streams, as well as its IATA structure
Technology	<ul style="list-style-type: none">• The new online business builds its IT platform based on the latest technologies (same technology as Facebook, LinkedIn, etc.)• The clear focus going forward is Mobile and Tablets• A big data infrastructure is built from day one to enable extensive personalization and micro-targeting to optimize conversions

Our strategy for the new online unit is built on a very simple principle:

“Benefit from the Group's power while being able to run at a speed that is required from startup businesses to be successful”

ATG plans to build a profitable billion dollar online business

ATG OTA's roadmap is very ambitious both in terms of product and regional expansion

	Short Term (1 – 2 years) Build	Mid Term (3 – 4 years) Grow	Long Term (5 – 10 years) Dominate
Build and grow the core business to become the dominating Online Travel Agent in and for the MENA region	Build the technological infrastructure <ul style="list-style-type: none"> • Mobile driven • Own booking engine • Direct integration with major providers • Big data platform with predictive pricing and extreme personalization Gradually launch different product verticals <ul style="list-style-type: none"> • Flights & Transportation • Hotels • Activities & Tours • Packaged Holidays Gradually expand into various countries <ul style="list-style-type: none"> • KSA • UAE & rest of GCC • Iran, Egypt & Levant 	Expand the technological infrastructure <ul style="list-style-type: none"> • Improve predictive analytics engine • Further integration with key inventory providers • More Automation Optimize different product verticals <ul style="list-style-type: none"> • Ensure product leadership by improving key features • Ensure price leadership by sophisticated prediction and superior procurement Further expansion into inbound relevant markets <ul style="list-style-type: none"> • Pakistan, Indonesia & Malaysia • Western Europe • North America 	Ensure Number 1 position in core markets and solid growth position in peripheral markets
Develop and roll out plan to enter and dominate the Islamic Tourism Sector	<ul style="list-style-type: none"> • The global Muslim population will exceed 2.2 billion people within the coming 1-2 years. In 2013, their outbound travel spend is estimated at USD 140 billion (Thomas Reuters "State of The Global Islamic Economy"). • Still, there is not a single globally branded travel product that serves this massive demand. • Al Tayyar's new online business will develop products for both the religious pilgrimage tourism (Haj & Umrah to Mecca/Medina) as well as religious holiday packages ("Halal Trips") targeting this huge market.

Section 6

Update on Makkah investments

Makkah market represents an attractive growth opportunity

Makkah is located in the western region of Saudi Arabia

It is considered the most holy city of Islam and the direction prayer (qibla) in which all Muslims should offer their prayers

Each year, during the Islamic month of Dhu'l-Hijja, Muslims from across the globe perform Hajj, in fulfillment of one of the Five Pillars of Islam

Description

AlHaram and Holy sites

- Al Masjid AlHaram is the world largest mosque and surrounds the holiest site in Islam, AlKa'aba AlMusharrafa
- Al Masjid AlHaram is currently undergoing the largest expansion to date; the proposed expansion will accommodate over 2.2 million worshippers from across the globe
- The recent completion of Al Jamarat Bridge project has solved one of the main bottlenecks of Hajj

Infrastructure projects

- The capacity of King Abdulaziz International Airport (KAIA) will increase to 30 million passengers by 2016
- Taif International Airport Project will increase the number of pilgrims in Makkah
- The Harmain High Speed Rail Project is expected to enhance the quality of transportation of pilgrims between the holy cities of Makkah and Madinah via Jeddah, Rabigh, King Abdullah Economic City and KAIA
- The first phase of Makkah Metro project is now operational, linking the holy sites of Mina, Arafat and Muzdalifah
- Other phases of Makkah Metro Project are under development

Muslim population

- The growth in Muslim population across the globe is one of the main drivers for the current and expected growth in Hajj and Umrah pilgrims,

Source: The Company

Number of Hajj and Umrah pilgrims is expected to triple over the next 3 years

Religious tourism accounts for almost 37% of all inbound trips into Saudi Arabia

The Government of Saudi Arabia reduced the number of visas granted for religious tourism in 2013, 2014 and 2015 due to the expansion project of the Holy Mosque

Saudi Arabia plans to approximately triple the number of visas granted for religious tourism purposes (2015-2018)

The number of Hajj and Umrah Pilgrims are expected to grow in the near future due to finalization of expansion plans of the Holy Mosque

Religious tourism share of total inbound trips to KSA

Expected religious visas granted

Projections of Hajj pilgrims

Projections of Umrah visitors

Source: MAS 2012/2-13, GACA, Ministry of Hajj

Room demand is expected to exceed supply starting from 2016

The current expansion of AlHaram resulted in a downward pressure on the occupancy rates in the market

Post AlHaram expansion project, demand is expected to exceed the supply of rooms available

Forecasted Makkah hotel supply and demand

Source: The Company

ATG's strategy for religious tourism in Makkah is based on complete vertical integration of the value chain

	Description
Build indigenous operating capabilities	<ul style="list-style-type: none"> • ATG has acquired Mawasim, a leading travel and tourism service provider in Makkah • Mawasim buys rooms in the wholesale market to provide accommodation to its pilgrim clients in Makkah and Madinah • Mawasim has expanded its scope of operations to include operating 4 and 3 star hotels
Control accommodation supply	<ul style="list-style-type: none"> • Fully and majority owned hospitality assets in Makkah and potentially Madinah; and • Long-term leased hospitality assets with tenors no less than 3 years
Develop hotel operating capabilities	<ul style="list-style-type: none"> • ATG has acquired Equinox, the company deals in the business of providing integral and strategic consultation of asset management in the hospitality and hotel industry • Equinox also provides hotel consultations such as operation and management of hotel assets
Transportation logistics	<ul style="list-style-type: none"> • ATG has just obtained a ground transportation license in Makkah • ATG is the General Sales Agent (GSA) for a number of regional and international airlines including Fly Dubai, Arabian Airline, Gulf Air, Aljazeera Airline and Nile Air among many others
Capture customer base from major originating jurisdictions	<ul style="list-style-type: none"> • Acquiring controlling stake in established tour operators in key jurisdictions; and • Building strong affiliations with others as well

The room is the most important component of the Umrah/Hajj package, hence ATG, with its large room inventory and operational capabilities will have more negotiation leverage with accommodation suppliers, thus shifting control of pricing to ATG

Muthmerah is a leading real estate developer and owner in Makkah

Muthmerah has developed residential and commercial towers

Tower Name	3 rd Ring Road	Masafi Hotel	Beer Balela	Albawaba 1 & 2	Sheabquresh Hotel	New Jarwal Hotel

Masafi Hotel

Beer Balela Hotel

Al Bawaba

Shebalquresh

Note: Muthmerah owns two parcels of land that have been under compulsory purchase order by the government which their book value is over SAR 360 million

ATG has recently acquired a premier hotel asset located in front of the new expansion phase of the Holy Mosque

	Description		
Hotel overview	<ul style="list-style-type: none"> • ATG has acquired a new 5 star hotel in Makkah to provide accommodation to its pilgrim clients in Makkah and Madinah • The hotel is located at Jabal El Kaaba and in a few steps away from King Abdullah new extension of the Holy mosque • In addition to guestrooms, the hotel has facilities of three luxurious restaurants, coffee shop and a prayer area 		 
Location	<ul style="list-style-type: none"> • 50 meters distance from King Abdullah Gate and • 290 meters distance from King Fahad Gate 		
Rooms	<ul style="list-style-type: none"> • 30 story hotel that accommodates 422 rooms and furnished apartments • 72 Rooms (Holy Mosque View), 36 Suits (HM View) and 52 furnished apartment (HM view) • 156 Rooms (City View), 48 Suits (with city view) and 58 Furnished apartment (city view) 		
Capital structure	<ul style="list-style-type: none"> • The property is acquired for SAR 1.5 billion • SAR 270 million paid in cash by ATG and • SAR 1,230 million is to be paid in 20 equal (half yearly) installments 		
Expected rental	<ul style="list-style-type: none"> • The property is expected to start at cash operating profit of SAR 110 million for the 1st year of operation in 2016 		

This property represents an addition of a new product to ATG's portfolio in Makkah.

Thakher is a mega hospitality city for Hajj and Umrah pilgrims with close proximity to the holy mosque

Site overview

Overview	
District	Rai Thakher
Plot size	322,832 sqm
Tenure	Assumed freehold
Distance from the Holy Mosque	1.4 km north of the Holy Mosque
Vacancy	Currently vacant
Shape	Irregular land shape

Market comparison		
	Thakher	Jabal Omar
Plot size	322,832 sqm	230,000 sqm
Location	North of the Holy Mosque	West of the Holy Mosque

Site description and location

- Located in Rai Thakher district in Makkah, a city positioned in Western Saudi Arabia that is highly noted for its religious significance to the Muslim population across the globe
- Located approximately 200 meters away from Makkah Municipality and 950 meters north of the Second Ring Road. The land plot is accessible via Ria Thakhar Street in addition to an access point from Al Saydah Zainab master plan
- Benefits from its 1.4km distance from the Holy Mosque, as well as its proximity to the main arteries of the city
- No limitation in terms of use, enhancing the site's development potential
- Irregular shape that is characterized by its mountainous topography with a rocky soil nature

Source: The Company

ATG will capitalize on a well located project to complete its vertical integration strategy, which will fuel future growth

Acquisition of a 25% strategic stake in Thakher will allow ATG to capitalize on the tremendous growth opportunity in tourism associated with religious tourism in Makkah through greater vertical integration

ATG strategy and benefits	
Complete vertical integration	<ul style="list-style-type: none"> • ATG's strategy for investing in Makkah is based on achieving a complete vertical integration in the supply chain of the religious tourism segment • ATG's current investments across its Makkah portfolio includes, travel and tourism services, long-term leased hospitality assets, transportation logistics and tour operators • Securing strategic land will facilitate further downward integration through the development of the plot(s)
Strategic location	<ul style="list-style-type: none"> • The site is well located 1.4km north of the Holy Mosque with a partial view of the Mosque • The site is located approximately 200 meters away from Makkah Municipality and 950 meters north of the Second Ring Road. The land plot is accessible via Ria Thaker Street in addition to an access point from Al Saydah Zainab master plan
Tremendous growth in religious tourism	<ul style="list-style-type: none"> • Makkah tourism depends on its religious significance as local and international Muslim pilgrimages perform Hajj and Umrah • Religious tourism accounts for almost 37% of all inbound trips into Saudi Arabia, and more than 50% of all inbound travel expenditures into the Kingdom • Saudi Arabia is more than doubling the capacity of the Holy Mosque reaching nearly 2.2 million worshippers by 2015 • Saudi Arabia targets to nearly double the number of Umrah and Hajj pilgrims by 2016 to accommodate the growing number of Muslims across the globe • King Abdulaziz International Airport phase I expansion is expected to be completed by end of 2015, with capacity reaching 30 million passengers per year
Recent acquisitions in Makkah	<ul style="list-style-type: none"> • In addition to Mawasim Tours, Muthmerah Real Estate Investment company, Nile Air and AlHonove Travel, the proposed acquisition will further diversify ATG's Makkah Real Estate and religious tourism portfolio

Source: The Company

Equinox has the knowledge of Makkah hospitality market with a team of years of accumulated experience

Hotel owners should look for independent asset management companies: independent from traditional hotel consulting companies to avoid conflict of interest (e.g. leaking of financial information), and independent from the owner to guaranty complete objectivity and superior results.

In general, Equinox fills the gap where ownership requires experts to undertake complete responsibility of management contracts, managing the manager, benchmarking property performance, and the capital improvement decision. Following are the key areas of our hotel asset management services
